

Why is Full Arch Dental Implant Center different than other practices that do implants

	Full Arch Dental Implant Center	Other Dental Implant offices
Doctor Board Certified in Dental Implant	Yes, Dr. Ash "STASH" Kaushesh is a Diplomate of the American Board of Oral Implantology/ Implant Dentistry	No, Most dentist doing implants don't have any certifications. There are only approximately 400 Board Certified Implantologists practicing in the world today.
Practice Limited to dental implants only	Yes. Our practice only does implants and specifically, mostly full arch treatment.	Most practices do implants in between crowns, fillings, root canals, perio surgery etc. and not dedicated fully to dental implants.
All work done in house by the same doctor	YES. Board Certified Dr. Ash "STASH" Kaushesh has placed over 20,000 implants in almost 24 years of being in field of dentistry	No, most offices will refer the implant part and only do the denture/teeth part.
Planning done together by two implant specialists	Yes. Dr. Kaushesh always plans every implant case together with another implant specialist to get a second set of eyeballs on the planning	No. Most dentists do not plan their cases. They outsource it to a lab person who is not a dentist or has any specialized training in implants.
FDA approved Chrome Surgical guide used in every surgery made of chrome and Titanium	Yes. We only use the best guides	Most dentists place implants freehanded, which increases the chances of error and increases treatment time.
Yomi Robotic Surgery available	Yes. We use YOMI robotic surgery for all of our 3 on 6 FP1 case.	No. There are only 3 other practices in the state of Arizona, 250 world wide that have a Yomi robot.
All on 4	Yes	No, most offices don't offer all-on-4 solutions. This product is very rare.
Extra implants up to two per arch included with every All-on-4 implants	Yes	No, Extra cost
IV or Oral sedation done at no charge with every implant case	Yes. Saves up to \$2,000	No. Most offices don't do Sedation. If they offer sedation, they charge a lot for it.
Extractions included in the cost of procedure	Yes	No, Extra Cost
Bite guard included at no extra charge	Yes	No, Extra Cost
Genuine Nobel Biocare Active or Implant Direct Iconic implants used in every case	Yes	No, Most offices use cheap knockoff implants to cut cost
Dr. Spends 10+ hours planning the case.	Yes with advanced software and AI tools	No, most doctors don't plan their cases themselves, a lab does it.
Comprehensive Aftercare and follow up	Yes, includes comprehensive aftercare and follow-up appointments to ensure long-term success. We see our patients every two weeks until implants are integrated.	Most offices see their patient only once or twice after the surgery to see if implants are integrating.
State of the Art facility	Yes, We have the latest of the equipment including Dexis LX CT machine, DTX software with Artificial intelligence and iTero scanners to plan the case most efficiently	Most offices do not have scanners, they take traditional impressions that add time and discomfort.
Patient Education and Support.	Dr. Ash "STASH" Kaushesh meets with every patient three times and writes everything down that pertains to pre and post surgery instructions.	Most dentist don't meet with their patients to discuss details. They leave it to their assistants.
Direct Access to Surgeon	Dr. Ash "STASH" Kaushesh gives his personal cellular number to all his patients just in case they have questions or want to get in touch with him directly	Most dentists "check out" after the surgery is done and are unreachable after hours, or patients have to make an appointment to speak with them.

Warranty	Our office gives full 5 year warranty on all-on-4 prosthesis as long as patients don't smoke and follow cleaning instructions.	There is no warranty given by any of the dentists.
Minimally Invasive techniques	Dr. Ash "STASH" Kaushesh is specially trained to follow minimally invasive surgical techniques so that patients can heal faster and have less discomfort.	Most dentist don't follow minimally invasive techniques resulting in much more discomfort than what it should be.
